

to the f.c.c...re: the nab's petition 04-160. i am a 50 yr old male, have been a avid music listener since i was in my early teens. i am also an xm radio subscriber.i implore you to dismiss nab's petition.if you ask any subsbriber why they choose to subscribe, i bet they will tell you that they were fed up with programmed playlists(same songs over and over) the barrage of ads,and so on.do we like paying for radio? i dont..but, to get the variety and the free form programming, i will.and yes, we need traffic and weather.as the service is constant from west to east coast, it is condusive to travel.after all, im paying for satellite radio, why should i not get that too? with all the big monopoly type companies like clear channel etc.they made free radio boring to listen to.they only issued this petition because they have lost listeners and hense, money!! please dismiss this petition as they caused the problem,and it is in their power to fix it with out your help..thank you..frank hansen
